DC-229

RUGGED CASE FOR TRANSPORT AND STORAGE

STURDY, ABS PLASTIC BODY

CUSTOMIZABLE INNER SPACE

The transport suitcase provides extra protection during transport and use of the items included in the field strength meters and the fibre optic connection kits. The suitcase is built with exceptional strength, which protects the contents against shocks, bad weather, dust and humidity.

ABS plastic construction enables it to withstand great impacts. It includes a compensation valve air pressure.

The suitcase includes padded adhesive bands to arrange the inner space according to the user needs.

DESIGN AND SPECIFICATIONS ARE SUBJECTO TO CHANGES WTHUT PRIOR NOTICE 09-26
